

THE AVANZA. **FUN GETS** EFFICIENT.

PERFORMANCE

FUN GETS EFFICIENT

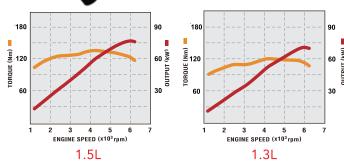

The Avanza you know is now more fuel efficient with a new engine (Dual VVT-i).

Dual VVT-i Engine

Available for both the 1.3L and 1.5L variants, the new engine with Dual VVT-i optimises valve timing for both intake and exhaust valve operation in various driving conditions for improved efficiency and output.

- Better fuel efficiency
- Lower cabin noise
- Enhanced engine performance

INTERIOR

SPACE FOR EXCITEMENT

The spacious Avanza provides room for more excitement and comes with a stylish makeover that ups the fun factor.

Ergonomic Dashboard

Silver ornamentation refreshment including the striking and eye-catching combination meter, gives the dashboard a contemporary flavour.

Interior images shown are the 1.5S with optional DVD-AVN System with Reverse Camera

passengers.

Stylish Interiors

Cooler Comfort

adds to the overall stylishness.

than ever before.

The 3rd row seat of the Avanza now comes with a 50:50 split folding seat cushion. The left and right seat can also be tumbled independently. This additional feature allows even more versatility in seating arrangements.

Equipped with a new engine for better fuel efficiency, along with bold exteriors

and a safer body structure for enhanced safety, the Avanza is more fun to drive

The black based monotone adds sporty style to the

dynamic and spacious design concept. The embossed texture

of the seat covers also give a sense of three dimensionality and

Independent rear controllers for the dual air-conditioner blower

provides added comfort and refreshment for 2nd and 3rd row

EXTERIOR

TOUGH, YET FRIENDLY

Enhanced exteriors give the Avanza an aggressive, stronger feel - with the same sense of fun.

Front Grille & Bumper

1.5S A thin upper grille that flows into the headlamps and a thick lower bumper opening shows a sporty, but still fun, appeal.

1.5G, E & 1.3E The upper grille

connects with the headlamps and

the wide lower grille that encloses

each end of the bumper gives a

strong, dignified yet friendly face.

Alloy Wheels

The spoke shape of the 1.5S & G provides a sense of movement, with a machined finish that expresses agility and speed, while the radiating unit construction of the 1.5E variant expresses a light, dynamic feel.

SAFETY

SAFETY FIRST

The Avanza offers more safety features for better peace of mind.

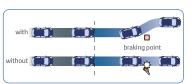

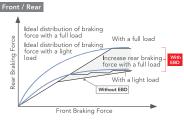

Enhanced Body Structure

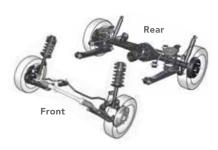

Provides improved front collision safety performance, enhanced cabin safety, impact absorption, riding comfort and pedestrian protection.

ABS(Anti-lock Braking System) & EBD(Electronic Brake-force Distribution)

ABS prevents wheels from locking, stabilising your braking even on slippery roads. The EBD then enhances this feature by distributing the right brake force to the front and rear wheels according to driving conditions and vehicle load.

Front & Rear Suspension

The improved front and rear suspension gives you a more comfortable and more fun ride by enabling straight driving at high speeds while providing better handling and stability, improved steering feel and reduced cabin noise.

Interior shown is the 1.5S variant with optional DVD-AVN System with Reverse Camera.

Dual SRS Airbags

If a frontal collision happens, the SRS airbags will deploy to reduce impact to the head and chest of both the driver and front passenger.
